

FUND OBJECTIVE

The fund may be appropriate for investors seeking current income and preservation of capital, and to a lesser extent, capital appreciation. Additional emphasis is placed on prudent overall diversification by asset class and investment style. Over a complete market cycle (3-5 years), the annual target rate of return for this fund is approximately 2% to 4%, net of fees.

FUND STRATEGY

The fund will maintain a target allocation that ranges between 20% to 40% in domestic and international equities. The remaining allocations will be comprised of investments in fixed income such as bonds, stable value, and money market funds. The investment manager will primarily use mutual funds and collective investment trusts to execute the strategy.

GROWTH & INCOME PORTFOLIOS

This group of portfolios is built for the participant's decumulation phase where retirement funds are withdrawn for expenses. During this phase, human capital begins to transition to financial capital as individuals reach retirement. Retirement funds are then used to replace salary-based earnings. Due to this dynamic, the portfolio has a value and income generation orientation.
