CUSIP 25476H302

First Quarter | 3.31.2022

## FUND OBJECTIVE

The Tactive Cash Balance Fund seeks a balance of capital appreciation and downside protection. This fund is primarily for financial advisors needing to manage a cash balance qualified retirement plan.

## FUND STRATEGY

This is an active strategy that is driven by a powerful technology. The technology, developed over 20 years ago, is comprised of two parts: an algorithm and Artificial Intelligence. The algorithm selects the investments that will represent the overall portfolio. It is a formula made up of seven statistical metrics that analyze the price of an investment. The artificial intelligence determines how many days the investments will be held until the algorithm starts its analysis again.
