## PORTFOLIO SECTORS

## INVESTMENT MANAGER

Granite Group Advisors (GGA) is an independent wealth management firm founded by executives with more than 25 years of investment experience. The very essence of GGA's genesis was to represent the family, pension endowment and corporate 401k investor only. GGA is an independent investment advocate, which means they have the ability to pick from any global investment as they are not affiliated with any brokerage firm. GGA does not sell proprietary products, instead they developed an investment process and approach that would maximize effectiveness when picking managers in growing client's assets. Since GGA does not have any their own mutual funds to insert in these CITs, the investor knows that choices made are for their benefit only.

## DISCLOSURES

Due to the limited history of the CIT, risk scores are determined using the 3 year monthly standard deviation of the investment strategy. Standard deviation uses historical data to represent risk. Changes in markets and other factors may result in material changes in standard deviation and therefore risk score.
